Special Limited Time Offer

March 23, 2015

$1,000 CASH BACK **when you upgrade your remote control system.**

Great news for ARC-16, GSC3000 and VRC2500 users: Now you can take advantage of our new technology without breaking the bank.

Burk Technology has set the standard for broadcast remote control since 1985. And we appreciate the support and loyalty of our many ARC-16, GSC3000 and VRC2500 customers. But technology and system requirements have both advanced, and today the ***ARC Plus Touch*** and ***ARC Solo*** help our customers meet new challenges.

The ***ARC Plus Touch*** leverages the power of today's superfast processors and the Internet allowing customers to have more data at their fingertips when they need it. ARC Plus systems can be scaled for any size group with the ability to monitor, control and log information enterprise wide.

The new ***ARC Solo*** has many of the capabilities of the ARC Plus condensed into a single unit, providing a very powerful yet simple solution for sites that do not require the flexibility of the ARC Plus.

Here is the offer: Upgrade your existing system with the purchase of an ***ARC Plus Touch*** or ***ARC Solo*** and ***AutoPilot®***. After you install your new system, send us your working ARC-16, GSC3000 or VRC2500 and we will send you a check for $1,000.00. It's just that easy. Offer good April 1, 2015 through June 30, 2015.

See page 2 for terms and conditions.

$1,000.00 TRADE-IN REBATE

Terms & Conditions

- Place an order for the purchase of an ARC PLUS or ARC SOLO Transmitter Remote Control and AutoPilot® software.
- Contact Burk Technology to obtain a Trade-In Rebate form and RMA number.
- Return your working ARC-16, GSC3000 or VRC2500 trade-in with a copy of the completed Trade-In Rebate form including RMA.
- Limit one trade-in rebate per new system purchased.
- Trade-in unit must be received at Burk Technology no more than 45 days after shipment of the new system purchased.
- Trade-ins not accepted without RMA.
- Upon return of the working trade-in unit, Burk Technology will send a check in the amount of $1,000.00 directly to the station for each order that meets these conditions.
- Offer applies to orders received between April 1 and June 30, 2015.
